1. Make affiliate network account

Chaturbate

Chaturbate is a site with webcam models who make live shows for users. This is one the most well-known webcam sites, which is great for when you promote it because people know they can trust this site.

Chaturbate offers \$1 per free signup or 20 % revshare. Revshare works well in the long-term. It makes sense – you have a share of all the profits made by the users you send to the site. And it's for a lifetime, so you are growing your user base and you will make more and more money over time. Snowball effect.

Don't worry about approval here. They approve everyone so don't hesitate to sign up.

2. Choose a niche (offer)

First of all you need to choose your niche and offer. I would recommend you choose something you personally like, at least to start with. Otherwise you can ask your affiliate manager on the networks which offers are converting well.

These are examples of niches and offers related to them:

I mostly do

- Anal, Big Ass, Big Tits and Blowjob niches and I use Stickydollars and AnalVids (Legalporn), Imlive and Chaturbate affiliate programs.
- Classic webcams – Imlive.com, Chaturbate.com
- Shemale webcams - Chaturbate.com
- Hardcore videos – EvilAngel.com, AnalVids.com
- Asian – JavHD.com

3. Register a domain

Your URL should look like a serious site. The shorter the better. You can buy a domain anywhere, a well-known domain provider is GoDaddy.com but it's expensive.

The cheapest are Namesilo and Dynadot.

Company	Price	Privacy	Protection	Total
 NameSilo	\$8.99	FREE!	FREE!	\$8.99
 GoDaddy	\$15.17	\$9.99	\$5.00	\$30.16

If you're on a tight budget, you can always use a free domain from Freenom.com

Pro Tip: If you want to promote a specific niche try to choose a domain that is similar to the original offer. For example, if you promote Big Asses try something like **assshake.com** or **jigglyasses.com** etc. People won't be confused by redirection as your domain matches the original niche.

4. Redirect your domain to offer

You need to link to an offer of your choice. The link is generated by your network, so it depends on which one you use. Something like this:

https://affnetwork.com/xXxxXxxXx?offer_id=X&aff_id=XXXX&bo=XXXX,XXX X,XXXX

Important! You should always insert additional information to your affiliate link. For example, you want to know which domains are bringing in traffic, especially important as you build up more domains. You will also want to know which landing pages you are sending traffic to. For this purpose you can insert additional info like "source" or "sub id".

To set up domain redirecting (forwarding) with Dynadot, please follow these steps:

1. Sign in to your Dynadot account.
2. Select "My Domains" from the left-side menu bar and click "Manage Domains" in the drop-down.
3. Check the box next to your domain name(s) and click on the "Bulk Action" button.
4. Choose "DNS Settings" from the "Bulk Action" list.
5. On the DNS page, select the "Forwarding" setting from the top drop-down menu.
6. Enter the URL of the page you wish to forward to, following the format of the example given.
7. Press the "Forward Domain" button to save your changes.

Please be aware that it might take some time for your name server changes to propagate.

BUY OR SELL EARNING METHODS

5. Test your domain redirection

Make a simple test. Wait for about 5-10 minutes, the time it takes for the redirection setup to be completed by the provider. Then insert your domain into the browser and see if you are redirected to the offer you chose. If yes, open your for example Chaturbate statistics and look to see if you have a click recorded.

It can take a few minutes until a click is displayed in the statistics. If not, check that the domain you typed is right and check that your domain is redirecting in the providers domain information page.

Pro Tip: when I promote Anal GIF, I redirect people to Anal Webcams at Chaturbate. When I promote Big Tits I redirect to Big Tits webcams....and so on. It's non practical to redirect for example Anal domain to Big Tits landing page!

Pro Tip: when I use a GIF that's from some video from for example Stickydollars network, I redirect people to specific website where that video originates from. This way visitor could join the website and download that video after paying. If a video comes from Trueanal, a GIF will be watermarked with a domain name that redirects to your Trueanal.com affiliate link.

6. Get adult content

In this part, we will talk about CONTENT sources.

What I do is having profiles on two popular social networks that allow adult content: Twitter and Reddit.

Twitter

Make an account and follow websites you promote via affiliate networks.

For example, Stickydollars have 5 websites in the network

Site

	All Anal
	Anal Only
	Nympho
	Swallowed
	True Anal

BUY OR SELL EARNING METHODS

I follow all sites, I also follow other big adult networks (AnalVids, EvilAngel, Bangbros...) and their sites and famous pornstars. I also follow some Twitter profiles that publish daily fresh niche targeted porn.

These network profiles are usually the “first hand” of unique GIFs and short videos since they publish their content first. This way I always have fresh and unseen porn.

Most of profiles post porn GIFs and short vids several times a day. That’s a huge content source for me. I follow about 400 different profiles.

So, I just login to Twitter daily and scroll down through my home page. Fresh targeted content is there (GIFs).

GIFs are great because they display briefly the most important parts of the scene or just one part. It's much better than videos where you need to show visitors entire scene which could bore them.

Short videos are very useful too because you can easily convert them to GIFs. I will explain later how.

Affiliate Networks

Another great way to get fresh GIFs is to regularly check updates on all network sites.

Most of the networks send emails to their affiliates when they have new videos.

These sites also provide free trailers for new videos. When an update happens, just download trailer and make a GIF from the part of a video you find interesting.

To make a GIF from a video use **EZGif.com video to GIF converter**.

7. Download GIFs from your niche

Downloading GIFs from Twitter is not easy like downloading simple images (Save As). The easiest way to do this is via browser add-on (extension).

I use Video | GIF Downloader by SaveTweetVid

With this add-on you will be able to download GIFs and videos.

To convert short videos to GIFs, I use [EZGif.com](https://ezgif.com), an outstanding site that can manipulate GIFs the way you want. It's just what we need.

9. Upload GIFs on specific traffic sources

Redgifs

RedGIFs is the #1 destination on the web for porn GIFs. You will upload your watermarked GIFs on Redgif and get unlimited niche targeted traffic since Redgif has millions of visitors every day.

How do I get my porn content onto RedGIFs?

A free RedGIFs account provides you with great benefits including your own RedGIFs profile to showcase your content. Here's what you can do with a RedGIFs account:

- Upload, browse, and share GIFs
- Organize and manage all your porn content
- Show some love by liking GIFs made by others
- Keep the sound in your GIFs
- Save GIFs you like to rewatch again and again
- Customized subscription feed of the accounts you follow
- Gather GIFs you like and want to share with others into collections

How do you grow your audience on RedGIFs?

There are multiple ways to grow your audience and following on RedGIFs. I advise doing the below.

Tags on your content. People who don't already follow you or know who you are will be browsing or searching for what they like or are interested in. Add tags of everything happening in your GIF and who is in it (the models or pornstars if you have that info).

Here's a great example GIF with helpful tags.

BUY OR SELL EARNING METHODS

Pro Tip: upload mixed watermarked and non-watermarked GIFs. Sharing only watermarked GIFs will put some negative reputation (not the real one) on your profile and followers will not grow like they should. I upload 40-50% of watermarked GIFs, rest of them are non-watermarked. One thing more, since I run a lot of domains those watermarked Gifs have different watermarks so my profile doesn't look like it's for promoting purposes only.

Make sure to follow profiles with similar niches like yours. Post GIFs every day. You will receive targeted traffic easily.

Pro Tip: Every subreddit has its own rules. Read it before posting to avoid getting banned. Start by posting non-watermarked GIFs. After that post mixed watermarked and non-watermarked GIFs, just like advised before. Don't flood subreddits with posts. 2 GIFs a day on each subreddit related to your niche is just enough.

Imagefap

ImageFap is an internet classic. It's been around for a long time, and it never let me down. It's basically the archetypical photo gallery site. It might not be new, shiny, and fancy, but it set the foundations for all of the other similar sites that you'll find. ImageFap isn't exactly actively updated by its administrators. Their most recent announcement is a few months old.

But the lack of attention from the people running the site isn't really a bad thing at all. We can upload watermarked GIFs unlimited and without any restrictions. You will need to create a profile and organize your GIFs by folders. Each folder should be a separate niche. It's easy and very effective.

ImageFap is nothing more than a repository for people to upload porn.

Many users use ImageFap as the source for images. So they will take your GIFs and share it on other image boards, that's just what we need.
